

Material Safety Data Sheet

AQUA OIL

1 Product Identification and Use

Product Name: Aqua Oil
Product Code: AO
Product Type: Organic Liquid
Chemical Family: Mixture of essential oils (terpenoid compounds)
Uses: Odour Neutralizer
Dangerous Goods Class: None

Supplier:
Odorchem Manufacturing Corp.
#404, 20285 Stewart Cres.
Maple Ridge, B.C. V2X 8G1
Telephone: (604) 942-7880

2. Ingredients

| INGREDIENT | % | CAS NUMBER | LD50 of Ingredient | LC50 of Ingredient |
|------------------|--------|------------|--------------------|--------------------|
| Terpenes Mixture | 5 – 10 | 65996-98-7 | Not available | Not Available |

3 Physical Data

Physical State: liquid
Odour and Appearance: characteristic odour, yellow liquid
Odour Threshold: not available
Vapour Pressure (kPa): 100
Vapour Density (air=1): 5.2
Evaporation Rate: not available
Boiling Point(°C): 120-160
Freezing Point(°C): -15 Celcius
pH: not available
Specific Gravity: approx. 0.87
Coeff. Water Oil Dist: not available

4 Fire and Explosion Data

Flammability: not flammable
Means of Extinction: use extinguishing media for surrounding fire
Flashpoint: not flammable
Upper Flammable Limit: not flammable
Lower Flammable Limit: not flammable
Autoignition Temperature: not flammable
Hazardous Combustion products: not flammable
Explosion Data: There is no explosion hazard from this material under normal circumstances.

5 Reactivity Data

Chemical Stability: Stable
Material to Avoid: Strong acids, strong alkalis, strong oxidizing
Polymerization: Will not polymerize
Decomposition Products: Carbon dioxide, carbon monoxide, water

6 Toxicological Properties

Effects of Acute Exposure

Swallowed: Data suggests that the product should be considered as slightly toxic by ingestion. May cause vomiting, gastric hemorrhage and central nervous system depression.

Eye: Data suggests that this product should be classified as a moderate eye irritant.

Skin: Data suggests that this product presents a low hazard via skin contact. Repeated or prolonged contact may lead to dermatitic effects.

Inhalation: Inhalation may cause irritation to the nose and throat and cause coughing and chest discomfort.

Primary route of exposure is inhalation and skin and eye contact.

Effects of Chronic Exposure

No specific data is available for the product for chronic exposure symptoms.

7 Preventive Measures

Personal Protection

Refer to "Directions for Use" section on the container.

Respiratory Protection: A face mask or respirator is **not** generally necessary when this material is being used.

Protective Gloves: Rubber or PVC gloves are **not** generally necessary, but are desirable.

Eye Protection: Safety glass or goggles are advisory if there is any chance of splashing.

Clothing: Clean coveralls should be worn, preferably with an apron. All skin areas should be covered.

Safety Boots: No special measures. Always wash hands before smoking, eating, drinking, or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

Spills and Disposals

Stop leak if safe to do so and contain spill. Absorb into vermiculite, sand, sawdust, or other absorbent material.

Sweep up and shovel or collect recoverable product into labeled containers for recycling or salvage. Recycle containers whenever possible. After spills, wash area, preventing runoff from entering drains. This material may be suitable for approved landfill. Dispose of only in compliance with local, provincial and federal regulations. Launder all contaminated clothing before re-use.

Storage and Transport

No special transportation requirements. This product does not have a UN Classification.

8 First Aid

Swallowed: If swallowed, **DO NOT INDUCE VOMITING**. Rinse mouth with water. Give glass of water to drink. Contact a doctor or the Poisons Information Center if symptoms of poisoning develop.

Eye: If this product comes into contact with eyes, hold eyes open and wash continuously for 15 minutes with running water. Ensure irrigation under eye lids by occasionally lifting eye lids. Do not attempt to remove contact lenses unless trained. Transport to hospital or doctor immediately if skin irritation develops. Eye wash stations or baths should be available when ever chemical product is being used.

Skin: If this product comes into contact with skin, wash skin with soap and water for 15 minutes. Remove contaminated clothing and footwear. Ensure contaminated clothing is thoroughly washed before using again. Transport to hospital or doctor immediately if skin irritation develops.

Inhalation: If fumes are inhaled, remove to fresh air. Lay victim down and keep warm. If breathing is shallow, or has stopped, ensure a clear airway, apply resuscitation or oxygen if available and transport to hospital or doctor immediately.

Advice to doctor: treat symptomatically. Note the nature of this product.
